# Methodology

---

DIFFERENT MAPS USED TO COMPARE PLACES  
AND ANALYSE THE NEIGHBOURHOOD TO  
CHOOSE THE BEST LOCATION

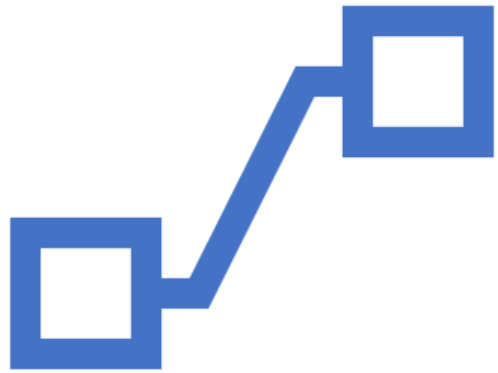

# Results

---

- MOSTLY PEOPLE WITH GOOD INCOME GROUP WERE FOUND IN NORTH SIDE OF THE CITY
- MAIN MARKET PLACE IS IN THE SOUTH OF THE CITY

# Discussion

FROM THE STUDY IT IS HARD TO FIND WHERE MOST OF THE RESTAURANTS ARE PRESENT .

# Conclusion

---

THE STUDY SHOWS THE MARKET PLACE WHERE MOST OF THE SHOPS ARE OPENED BUT IT DOES NOT GIVE ANY CLEAR VIEW RELATED TO OTHER RESTAURANTS
